

Adding Players and Family Members

Ditch the spreadsheets and binders. GameChanger Team Manager organizes all your team's contact info in one, easy-to-use app.

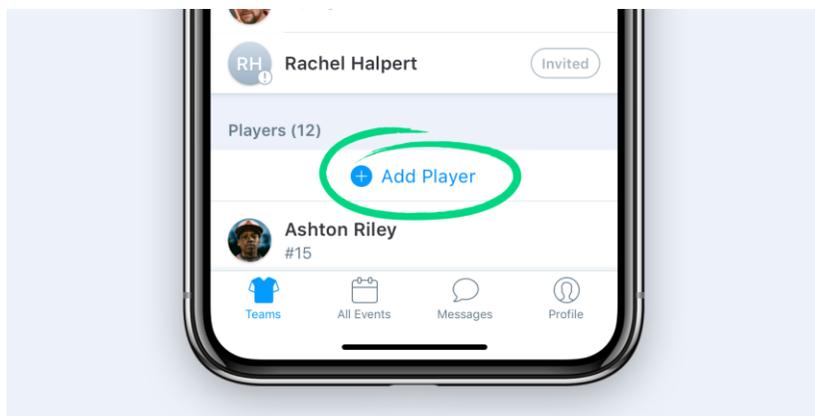

Once you have created your team you will be prompted to "Add Your Roster." You can do this now, or at a later time.

At least one email address is needed to add a player in the new player form. You can add as many players as you want and up to 10 family members per player.

Note: Only staff members can add players to the roster.

How to add a player

(For iOS and Android)

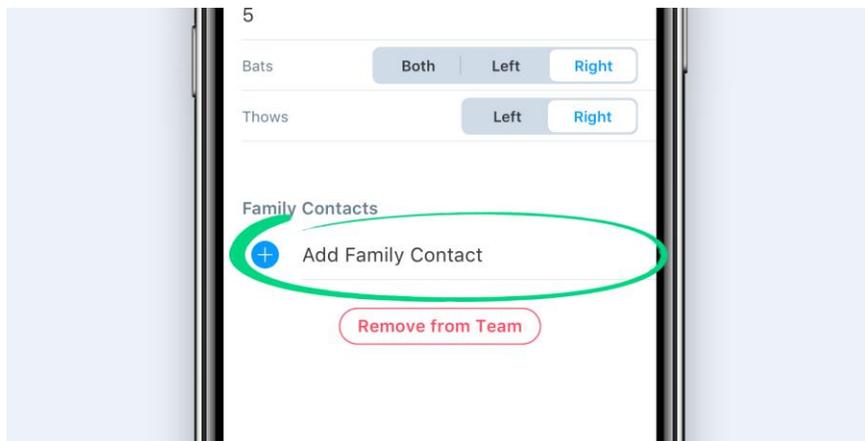

Tap the "Teams" tab in the bottom left corner

1. Tap the team you'd like to add a player to
2. Tap the "Add Player" button
3. Enter the Player and Family Member name and contact info
4. Once you tap "Done" an email will be sent to the player and family with instructions on how to join the team.

How to add family members

(For iOS and Android)

If a player does **not** have an active account or an active family member attached to their profile, Team Staff will be able to add family as needed. However, once a player or family member has accepted the invite to create an account on GameChanger Team Manager, only the player or family member can add additional family to the player's profile.

If the player or their family member does not exist (isn't registered) on GameChanger Team Manager, team staff can add additional family members:

1. Open the app
2. Go to the team community
3. Tap the appropriate player
4. Tap Edit in the top right corner
5. The fields will open for you to edit the player and add additional family contacts
6. Once you tap "Done" an email will be sent with instructions on how to join the team.
